We have been able to do many things we probably would have had to wait some time to do had it not been for Market America. Now we have secured a path for our future as well as gained a few steps toward our dreams!

With the Market America opportunity we have become a part of an exclusive team and want nothing more than to see to it that others are provided with the same opportunity to enrich their lives as well! What better way to help shape someone else's future than through the UnFranchise® System?! Taking an active leadership role allows us to give back! There is nothing we like doing more! This business has become our vehicle for overcoming many obstacles that at one time may have been considered insurmountable. We now have our eyes open and our goals set for a lifetime of time freedom and permanent, ongoing income. But let's not forget that without the efforts of all in our organization we would not have been able to succeed! We thank everyone for that, and remember where we came from and recognize how the effort on our part will help shape their future as well! It is truly a team effort and there is no "I" in that word!

With determination, a little hard work and effort, taking a step out of your comfort zone and holding yourself accountable, anyone can become a hopeless success! Big Al reminds everyone that with an open mind, the ability to follow directions and be coachable, you have the steam to move up to the top! We're hoping we see everyone there with us!

#### **Saturday Location:**

**Hopkins High School  
2400 Lindbergh Drive  
Minnetonka, MN 55305**

**Ticket Cost: \$25.00**
